Siamese Twins Die and Live

Week-Old Infant Recovering After Being Separated from Lifeless Sister

ame Blood Supplies Both at Birth But Heart of Only One Made to Function

CHICAGO, Feb. 7. (P)-The separation by surgery of Siamese twins, a week of age, to save the life of one of them after the other had died. has been reported from the Rybi Memorial Hospital at Ottawa, Ill.

Keller. They were joined in the lower part of the abdomen in such a manner that the same blood coursed through both bodies. Each weighed about five and one-half pounds.

Dr. Paul R. Clark said one of the wins, named Meta Maris, cried Iustily at birth. The other, also a girl, showed no signs of life, saving circulation of blood, pumped through the heart of Meta Maris.

Efforts to start life in the body of the other infant failed. Using a make-shift incubator, built by the physicians and the father of the twins. Frank Keller, they were taken to the Ryburn Hospital. An anaesthetic was used, after which the operation separating Meta Maris from her lifeless sister was performed, Oxygen was used for an hour to counteract the effects of the anaesthetic.

Within two days Meta Marie was returned to her mother, normal and crivered, who physicians aside. twins, named Meta Marie, cried lustil;

THIS man's commission check is always bigger than any other salesman's on the staff. He's a wonder! When he breezes into town after a gruelling business trip—with a bunch of orders in his pocket for the boss—he's always as fit as a fiddle. And just rarin' to go off again.

How does he do it—living on trains—snatching hasty meals at railway station counters and small town restaurants? Forever on the jump.

If you could see him pack his bag for a trip, you'd know. A bottle of Nujol always goes in. Nujol keeps body functions normal, even under abnormal regime. Keeps hasty meals and indifferent food from upsetting you. Wards off the bad effects of change of water and climate. For Nujol not only prevents any excess of the body poisons (we all have them) from forming, but also aids in their removal.

Whatever your job is—you need health and energy to ride it. Take a tip from this star salesman and take Nujol regularly. You'll be amazed to find how much more clear-headed and all round efficient you feel. Keep up this treatment faithfully for 3 months and you'll feel like a million dollars. And you will have taken the first step toward have taken the first step toward

that she was the flance of Harry than fifty years ago to become a short walk. The alarm was sounded that she was the flance of Harry than fifty years ago to become a short walk. The alarm was sounded then told of numerous dates with the youth last August which, the defense says, furnished an alibi for the defendant.

There was no embarrassment in her manner. She told of going awimming with Harry on the after-swimming with Har

Hill.

Miss Sawyer's story as to Harry's dodings on August 13 was taken up where she left off by Austin Hart, 18, who said he met Harry a few minutes after he left the Sawyer home. They went to a gambling house in the basement of the Plumb Hotel, Streator, the witness said, and Harry shot craps until 12:30 c'clock. Ed Murray, who supervised the crap game, corroborated this testimony.

Inventory of

BALTIMORE (Md.) Feb. 7. (P)—
Partial inventory of the personal estate of the late 8. Davies Warfield, capitalist and financier, filed today in Orphans' Court, showed that he left in excess of \$4,609,284.

The will directed, that the estate, with the exception of small bequests to friends and relatives, be used to provide a home for aged women in memory of his mother. His ancestral home in Howard county, Maryiand, was set aside for that purpose.

Injury Located

Puneral services for Mrs. Charlotte
Ford were halted today at the request of Lawrence Martin, 19 years
of age, her son by a former marriage,
and the resultant autopsy he asked
revealed that Mrs. Ford had a fractured skull when death came to her.
The semantional situation was directly due to a statement made by
the late Mrs. Ford to her son several
days ago to the effect that on December 31, last, her husband slapped
her so hard she was knocked down.
She complained that her head had
been hurting. The son recalled the
remark when the attending physician diagnosed death as due to a
hemorrhage of the brain.
She died last Sunday. Coroner
Grant Miller set an inquest for tomorrow and then allowed the funeral
to proceed.

Angeles License Money Totals \$1,500,610

State Motor Chief Reports on 1927 Collections

Great Gain Revealed Here in Number of Cars

SACRAMENTO, Feb. 7. (Exclusive) the State motor vehicle license fees collected in 1927, Frank G. Snook. collected in 1927, Frank G. Snook. chief of the State Division of Motor Vehicles, revealed today. Los Angeles county alone will receive \$1,500,610.12 based on fees paid on the registration of \$89,902 motor vehicles, while San Francisco, which registered 125,729 machines, will be alloited \$298,80.12. Alameda county will get \$298,254.13 on a registration of 128.101 vehicles. Snook announced that complete. State totals have not been compiled.

"Los Angeles county," declared Snook, "made a net gain of 48,995 over the previous year in the number of vehicles registered. The year's registrations were announced as follows: Passenger cars, 18,107; motorcycles, 912; trailers, 650. Snook announced that complete States to the previous year in the number of vehicles registrations were announced as follows: Passenger cars, 18,107; motorcycles, 912; trailers, 650. Snook announced that complete States the counties and half to the State to be used exclusively for the maintenance of highways.

Clothlers' Meeting Dopes What Snappy College Boys Will Wear

CHICAGO, Feb. 7. (P)-Gart-CHICAGO, Feb. 7. (87—Garters are gone, and so are caps as far as the college student is concerned. But the suspender business is perking up, members of the Illinois Retail Ciothiers' and Furnishers' Association said when they met here

college boy goes, so goes the nation. And the college boy next Spring, opined the cloth-iers, will wear a light gray suit, gray hat, black shoes, white shirt with soft collar and

Inrough Snowy Heights - Desert Heat-High Speed and Heavy Pulling The New FORD and HYVIS

To average 58.26 miles an hour ... to lower the Los Angeles-Phoenix road records by 1 hour and 59 min. utes for the 910-mile round trip grind . . . to perform equally well in snowy mountain passes or terrific desert heat ... these are achievements that say enough for the new Model A Ford's speed and its ability to sustain it. And they speak volumes for the oil that protected its motor . . . HYVIS . . . the superrefined 100% Pure Pennsylvania Motor Oil.

HYVIS is an exceptional oil! It is refined to more than meet the requirements of the modern high speed motor . . . it provides an added margin of safety in lubrication . . . protection PLUS!

It was this added margin of safety and protection that helped the new Ford smash records . . . and it is helping cars of every other make in smashing records for day after day performance and economy! Let your dealer tell you all about HYVIS . . . or ask for it at any of the better Independent Service

Stations. There is a grade of HYVIS suited to the needs of your particular make of motor. WARREN OIL COMPANY . . . LOS ANGELES Refineries . . . Warren, Pa.

MAINTAINING an average speed of 58.26 miles an hour from Los Angeles to Phoenix, over rough, rutted gravel roads, a completely equipped stock Model A Ford Tudor Sedan broke three Los Angeles-Phoenix road records. Running time to Phoenix, via Yuma . . . 8 hrs., 14 min., 50 sec.; lowering record by 19 min. and 10 sec. Return trip, via Blythe ... 8 hrs., 50 min., 10 sec.; loweringrecord 1 hr., 39 min. and 50 sec.

CATA THE THE PARTY OF THE PARTY

Excerpts from Letters by the
Three Drivers

... I had the utmost confidence in the Fard am
and I also felt confident that in lubricating a sale
HYVIS that I was doing everything personal assertion in performance ... the fact that waveraged 50.26 miles an hour convinces me
pletely of the high quality of HYVIS and is
resistance to heat.

FRANK FRENCH, of Poster & Frank

We are all highly pleased with the performance the car, but I want you to know that we are a ware of the important part that HYVIS in this run . . . it is only by perfect labricate this motor, was kept operating without a man the terrific speed.

F TROJANS MEET STANFORD IN TWO GAMES HERE NEXT WEEK

Stanford's basketball team will come here next week to play Southern California two games at the Trojan pavilion. The contests are billed for Monday and Tuesday nights. Although a third game was originally scheduled it will not be played because the season is was originally scheduled it will not be played because the season in rapidly drawing to a close and officials of the two institutions were unable to find room for the other contest. The games were post-poned from the 4th, 10th and 11th inst. because of the epidemic of infantile paralysis at Stanford. Jack Bruner, Trojan captain, will be

OS ANGELES harbors a schoolgirl diving genius who will win her event at the Olympic Games this year just as sure as green apples grow on trees. Fred Cady, the veteran L.A.A.C. tutor, will back up this statement with money, marbles or chalk. The girl's name is Georgia Coleman. She is 15 years of age. Cady says she gave him his first coaching thrill in twenty years.

"I've dreamed of a genius like this girl for years but never expected to discover one. She's had two months' coaching under me, and she's a finished diver. She executes coaching under me, and she's a finished diver. She executes difficult dives that it requires the average girl two years to perfect. There isn't anything she won't try. Explain the mechanics of a new dive to her and she will trot up on the springboard and tackle it. She has supreme courage. She has taken flops in the water that have raised blisters on her body—flops that send boys to the showers with tears in their eyes and this girl never whimpers."

After this remarkable tribute by Cady, who has never been known to rave before in his life, I am prepared to expect anything of his young protege.

She is, by the way, the junior 10-faot spring-board champion, having copped the title at Pasadena recently. She appears at the special meet at the L.A.A.C. tonight, and Mr. Cady's reports of her prowess certainly are superlative enough to attract the fans in droves.

JUNIORS COP TRACKFEST

Third-Year Cinder-path Stars Nose Out Seniors by Two Points in Hollywood Class Meet

With a well-balanced squad of track-and-field talent, the Junior A class

With a well-balanced squad of track-and-field talent, the Junior A class won the annual Hollywood Interclass trackfest on Patterson Field yesterday afternoon, defeating the Senior A's by two points. The Seniors scored 41 digits, mostly on the track, while the juniors ran up 43. The 128 class finished in third place with 26 points.

Times for the most part were slow-first place in the high jump and although Bernard Miller, junior ath-looms as one of Coach Bill Paige's lete, copped the low-hurdle event best beta in the coming City League in the fair time of 28.9s. and the high sticks in 15.4s. He also tied for (Continued on Page 2, Column 3) ****************************

PADDOCK INJURES LEG AND CAN'T RUN AGAINST TIGERS

dena flyer expects to be ready for the A.A.U. relays at the Collseum a week from Saturday. The injury is not serious, according to Paddock. In 1921 he hurt his right leg rather seriously but ing to Paddock. In 1921 he hurt his right leg rather seriously but that did not prevent him from running in the national A.A.U. meet. Dr. Albert Weston is attending to the injury, which amounts to the splitting of the sheath surrounding the muscle. Oddly enough the runner suffered the same type of injury in 1921.

WHITTIER TOSSERS SLIGHT **FAVORITES TO DEFEAT OXY** QUINTET SATURDAY NIGHT

BY BRAVEN DYER
When the U.C.L.A. Bruins graduated into the Pacific Coast Cons

emough games to be rated in the same class.

But thanks to Mr. Edgar Keinholtz the Whittier cagers are being supplied with plenty of opposition right off the bat. Mr. Keinholtz, a quiet-mannered fellow, has gone about his business at Occidental and in so doing has created a basketball machine which leads the conference with six victories and no defeats. The Poets are also undefeated, but have played one game less than their rivals.

Saturday night the foss get together which will go a long way toward deciding the championship. One week later they meet again.

Whittier is a slight favorita, principally because Capt. Blil sucksdori. and Willard (Speed)

Weaver rate as two of the greatest players in the circuit. Occidental has her stars, but so far they have not shown with the same degree of hrimancy

LONDOS TANGLE OBSERV

THEY do tell us that Hon.

Uzcudun, the Spanish fistle ambassador, is about as tough as a boarding-house steak and at the same time as aggressive and annoying as a golfer who has just abot a hole in one and wants to tell you about it. The reports have it that the Belaboring Basque makes a bust ness of wading in and hurling punches until the other gay gets so tired of it all that he just naturally curis up and quita. This theory may be airight as regards the avesage heavyweight for, from what we've seen of them, the average bruiser of heavy tonnage requires practically no opposition at all to become rather downhearted and discouragement means because he can't pronounce it. Thus it should be quite an affair.

The world's leading fight fan

cause he can't pronounce it. Thus it should be quite an affair.

The world's leading fight fan has been heard from again. Milt Frohman, who rushes all over the country from one big fight to another, taking pictures of everybody and everything in sight, has been stung into action by Jack Dempsey's announced fistle demise. Milt thinks Jack will be on the job in the fall and mays that his eye trouble came from what he got in the tail and mays that his eye trouble came from what he got in the tail and mays that his eye trouble came from what he got in the tanth round at Chicago. He adds that if Jack Kearas had been in Dempsey's corner there wouldn't have been any tenth reund. Milt cheers lendily for the New York method of having the timekeeper beat on the floor with a ciul, thereby keeping the easet time the man is down regardiess of how much time the referee takes in shoving the other party into a neutral corner. Milt, are you trying to start that doggone argument all over again?

Joe Pipal, who is generally conceded to be the real paps of the lateral pass as he won national fame through its use at Cecidental some ten years ago, suspects that peasibly one part of the new lateral pass ruling has not come out. He refers to the right of the offensive team, while it may recover a fumbled lateral pass, gains possession of the ball but ean't run. Stories released on

mittee.

Among its more important features is one clarifying the Guardianship Act, giving the bureau added powers and provises that beneficiaries of the bureau, who through no fault of their own, received payments in excess of these to which they were legally entitled, shall not be prosecuted for recovery if the bureau director decides such action would not be equitable.

The omnibus bill also provides that benefits of the Veterans' Act; it permits allowances now paid to families of temporary disabled veterans to be paid to dependents of veterans who are claused as total permanent disabilities. This provision would affect, it is estimated by the Legion, at least 75,000 veterans and would probably involve an annual expenditure of \$4,53,000.

Among the most important provisions the action authorising the bureau to extend out-patient, treament to all veterans who are claused as total permanent disabilities. This provision would affect, it is estimated by the Legion, at least 75,000 veterans and would probably involve an annual expenditure of \$4,53,000.

Among the most important provisions the action authorising the bureau to extend out-patient, treament to all veterans where facilities are available and one increasing the allowance paid to means veterans from \$20 to \$30 s month.

I applies all the conveniences and nis of a city home in the coun--and all the desirability of a me within from five to fifty of everything the city has to

a can live on the edge of the

out leaving the corporate limits, you can go fifteen miles away from it.

You can live by yourself, in retreat -or you can live in a community of any size you prefer.

You can live in the foothills or in the rich fertile valley. You can live on a city lot or have a productive place of from one to five acres or more.

You can spend as much money as you like on an estate - or you can . make a home place that will sustain - or help sustain - itself.

There is the inspiration of the open - the sense of space, distance, bigness, grandeur - and the glory of the day - sunrise, morning, noonday, evening, moonlight - as enjoyed only in a land of outdoors amid the beauties of nature. The birds sing - and

with it all.

And now let us look at the map.

For several years the highest rate of increase of population in America has been at the mouth of the San Fernando Valley. Now it has pushed on into the valley.

A like pressure of population has been partly and temporarily held back at the Cahuenga gateway in Hollywood because of the unfinished condition of Cahuenga Boulevard. In spite of that handicap Hollywood has pushed over into the valley, wiped Lankershim from the map and replaced it with North Hollywood.

Now Cahuenga Boulevard is open - a 74-foot concrete-paved high-speed highway - and the flood of population flows uninterruptedly through it.

not wait. They have already gone into the valley in numbers - to get more room, clearer skies, and a half hour longer daylight.

They are distributed from Burbank to San Fernando and to the west county line.

For this growth and other big developments that are coming the Better Half is ready. It is planned and laid out now for a population of a million and a half or more.

Its street and highway system is laid out in advance. Much of it is already paved. Steel mains from Los Angeles Aqueduct cover the valley now - ready to supply two million people with water.

There are three railroad lines which can be used for rapid transit - and three electric lines.

available now and sewer will soon reach the more thickly settled parts.

The Better Half is being built with foresight instead of hindsight.

We have every opportunity to build the better half here. We have everything to build with and know more about the future and its requirements.

Because it is highly attractive from many points of view - because it is ready to receive the people - because. it is in the line of march of the pressure of population, following its natural tendency to the west and north and higher ground - and because motion pictures from the valley will go to every city and hamlet of the earth -Los Angeles' Better Half will be one of the world's greatest developments during the next ten years.

Fox Film Corporation, which acquired control of the West Coast Theater chain, has the exclusive rights of the movietone, while Warner Brothers Pictures, Inc., controls the vitaphone. It is understood that both companies are taking steps to install the devices throughout all the theaters where Fox and Warner Brothers pictures are distributed.

HAY MARKET FAIR

Alfalfa Demand Only Moderate

Principal hay markets were only moderately active during the week ending the 4th inst. according to the weekly hay-market review of the United States Bureau of Agricultural Economica, mild weather overa large part of the country restricting shipping inquiries.

Alfalfa markets held firm for good quality hay. Receipts at Kanasa City were liberal but the bulk of the offerings was of medium to lower grades hay. Although some daily carryover resulted from the liberal offerings a fairly active demand from the consuming areas of the South and Southeast absorbed most of the arrivals. Oreen alfalfa which was in light supply moved readily to shippers and mills. Good quality leary hay appears to be in active demand for shipment to Iowa, Illinois and Indians. The Omaha market was dull with supplies of medium to lower grades exceeding the limited demand. Supplies in this area appeared ample and considerable hay was moving by direct shipment into consuming areas. A good inquiry was reported at Chicago. Increased inquiry for hay at Denver resulted in an advance in prices to growers, and stocks were reported to be materially reduced. Pacific Coast markets were firm although mild weather of 7.446.285 square feet, shows an increase of 101.974 square feet area server firm although mild weather restricted demand in the Yakima Valley. Small stocks of alfalfa in western Texas and New Mexico areas eastward.

Canal Transits Set New Record

WASHINGTON, Peb. 7. (Exclusive)

WASHINOTON, Peb. 7. (Exclusive)
Commercial transits through the
Panama Canal for the year ending
December \$1, 1927, aggregated 6085,
as compared with \$420, for 1926 and
4774 for the year 1925.

Commercial traffic for the calendar
year 1927 exceeded that of any twelve
months' period since the opening of
the canal in number of vessels, tonnage, tons of cargo carried and
amount of tolis collected, showing
an increase over the previous record
as follows: 11.1 per cent in number
of transits; 9 per cent in tonnage;
4.5 per cent in tons of cargo carried,
and 7.9 per cent in tolis collected.
Heavy wheat and nitrate shipments
through the canal during the last sir
months of the year have played a
large part in establishing this new
high record.

JANUARY BUILDING PERMITS IN DECLINE

NEW TORK, Peb. 7. (P)-Brad-NEW TORE, Peb. 7. (P)—Bradstreet's compilation of building permits in 171 cities for January shows
\$305,243,156, against \$233,159,291 in
December and \$199,245,693 in January, 1927, a decrease of 11.9 per cent
from December, but a gain of \$6 per
cent over the heavily reduced total
of a year ago. This gain is thought
to mean that ordinary building has
reached its maximum; that boom
causes or effects have been eliminated and monthly building comparisons
from now on are to be on a fairly
solid basis.

\$14,000,000 Oklahoma Natural Gas Corporation

First Mortgage 5% Gold Bonds, Series B

Due February 1, 1948

Capitalization: (Upon completion of present financing) " Surint B limited by the provisions of the Mortgage and of a Supplemental Industries, to be dated so of February 1, 1928. Spins A closed. 9 54,542,100 is of 556 % Series and 52,100,000 is of 706 Series.

Properties: The distribution lines include more than 1,510 miles of mains through which over 111,000 metered consumers are served. The transmission and distribution system comprise over 3,400 miles of mains and also include 19 modern compressor stations. The properties include gas lease-holds on more than 215,000 acres and gas purchase contracts covering more than 125,000 acres of additional reserves. Gas is procured from more than 1,250 producing gas wells. Over 92% of the gas distributed by the properties is purchased under valuable contracts from producers. It is estimated that the open flow capacity of the wells, from which the properties derive their gas, is in excess of 2,500,000,000 cubic feet per day.

Security: This issue of First Mortgage 5 %Gold Bonds, Series B, together with the bonds of Series A now outstanding, constituting the only funded indebtedness of the Corporation, will rank equally and will be secured, in the opinion of counsel, by a direct first mortgage on all of the physical properties now owned and presently to be acquired by the Corporation. The depreciated reproduction value of the properties, as appraised by independent engineers, plus the actual cost of recently constructed properties, improvements and additions, is reported as over \$52,900,000, as compared with \$26,620,000 principal amount of First Mortgage Bonds now and presently to be outstanding. In the above valuation only about \$6,400,000 has been included for the value of the Corporation's immense gas holdings consisting of gas acreage, leaseholds and valuable gas purchase contracts.

Gross Recented Operating Expenses, Maintenance and Taxes, other than Federal Income Tax	But. St., 1927	Ended Doc. 31, 760 \$11,130,054 6,385,230

tion (including this issue)	8 1,457,200	

Sinking Funds: The operations of Sinking Funds are calculated to retire, before their respective maturities, at least sixty-eight per cent, in the aggregate, of all Series A and Series B Bonds now and presently to be outstanding.

Public Service Commissions: The properties are operated under the jurisdiction of public utility commissions, or other analogous bodies, in the States of Oklahoma, Kansas and Texas to the extent authorized by respective laws. The issuance of these Bonds is subject to the authorization of the Kansas Public Service Commission.

Management: The management of Oklahoma Natural Gas Corporation is under the direction of the organization which has been largely responsible for the growth and development of the greater part of the Oklahoma properties during the past eleven years, and the operating ability of which has been thoroughly demonstrated. Over ninety-eight per cent of the Common Stock of the Corporation is owned by American Natural Gas Corporation.

CENTRAL NATIONAL BANK, OAKLAND, Trustee

Exempt from California Personal Property Tax Application Has Been Made to Certify These Bonds as Legal Investment for Savings Banks and Trust Funds in California

This loan has been approved by the Most Reverend Edward J. Hanna, D.D., Archbishop of the Archdiocese of San Francisco

History: St. Mary's College of Oakland, California, was founded in 1863 and was incorpor 1892 by The Brothers of the Christian Schools, an order of the Roman Catholic Church. This consisting today of over 20,000 teaching Brothers, is one of the largest in the church. Four Rheims Cathedral in France in 1680, the order now operates schools and colleges in nearly

Security: These bonds will be specifically secured by a First Mortgage on the following real property and improvements. Figures given are the lowest of several appraisals:

245.19 acres near San Leandro

11.52 acres in the cities of Berkeley and Albany
Improvements on Berkeley property

111.68 acres in San Mateo County Total value of pledged property \$2,699,916

In addition to the above and some small holdings of real estate, not specifically mericand under this issue, St. Mary's College owns a \$600,000 note due June 1, 1929, which they have taken in part payment for the old college property on Broadway, in Oakland, which has been sold. It is the intention of the college to liquidate this note and they agree to apply the money received therefrom either for the retirement of bonds or for the construction of improvements to the new college property in Moraga. They plan to eventually sell the properties near San Leandro and in Mateo County and to use the proceeds of these sales in like manner.

St. Mary's College also owns equities worth over \$500,000 in the property used by the Christian Brothers High School at Sacramento and by de la Salle Institute in Martines. Upon complete of improvements to the property at Moraga the total assets of St. Mary's College, including property specifically pledged to secure this issue and other resources and equities, will have a total value excess of \$3,800,000.

A title insurance policy will be issued by the Oakland Title Insurance and Guaranty Comparin the amount of \$1,500,000. Fire and public liability insurance will be carried.

Sinking Fund: The Trust Deed will provide for a sinking fund, calculated to retire more than half the issue before maturity, which shall be used to purchase bonds in the open market if chainable at or below their call price. If not so obtainable, the bonds shall be called by let. Sinking fund payments shall be sufficient to retire in each of the years—

In the event of the issuance of all or any part of the additional \$500,000 authorized bonds

sinking fund payments will be proportionately increased. Purpose of Issue: The proceeds of this issue, together with other funds, will be used to complete new college buildings now in the course of construction at Moraga, which should be ready for a cupancy September 1, 1928.

General: The site of the new college in Moraga Valley is ideally suited for the purpose for it will be used. Sufficient land is available to provide for the requirements of a growing college improvements now under way will include in addition to the dormitory and class rooms, which accommodate 1000 students, an artificial lake to be used for water sports and irrigation, as a modern athletic stadium. The enrollment of St. Mary's College at the present time is 540 collegiate department; 420 in the preparatory school department, which is conducted as a collegiate department.

There are no restrictions with respect to the issuance of the authorized and unissued 000 First Mortgage Bonds, except that the proceeds of the sale of these bonds must be expense. the improvement of the Moraga property.

These Bonds are offered when, as and if issued and received by us, subject to the approval of counsel, Most bury, Madison and Sutro, San Francisco and subject to the approval of the Commissioner of Corporations of the California and such changes as he may require.

(A CALIFORNIA CORPORATION)

61/2%

Sinking Fund Debenture Bonds

Dated February 1, 1928

Due February 1, 1936

[Closed Issue]

PACIFIC NATIONAL BANK OF SAN FRANCISCO, TRUSTEE

The Company agrees to refund, upon timely and appropriate application, California personal property taxes not exceeding, in any case, five mills per annum.

e Principal of this Issue is 100% Secured by Pledged Contract of The Fageol Motors Company, an Ohio Corporation, 98% of whose stock is owned by American Car and Foundry Motors Company.

Mr. L. H. Bill, President of the Company, su mmarines from his annexed letter as follows:

GENERAL: Fageol Motors Company, occupying a modern manufacturing plant in Oakland, California, has been manufacturing and distributing high-grade safety coaches and motor trucks since 1916. Annual sales of the company for the seven years to and including 1927 have averaged over \$2,888,000.00.

SECURITY: These debenture bonds are the direct obligation of Fageol Motors Company, which covenants that during the life of this issue no liens will be placed that during the life of this issue no liens will be placed on any of the real property, plant, equipment or fixtures now owned by the issuing corporation. This issue is further secured by pledging with the Trustee a contract executed between said Fageol Motors Company, a California corporation, and the Fageol Motors Company, an Ohio corporation, 98% of the stock of which is owned by American Car and Foundry Motors Company, a subsidiary of American Car and Foundry Company, whereby the sum of \$600,000, the full principal of this issue, will be paid to the California corporation in eight equal annual installments of \$75,000 each.

EARNINGS: Net earnings before interest and Federal Taxes for the six years ending January 1, 1927, average \$193,699.60 per year, or 4.9 times annual interest charges on this issue. Net earnings for the ten months ending October 31, 1927, were \$204,981.45 or 5.2 times annual interest charges.

CURRENT ASSETS: The balance sheet of October 31, 1927, appended hereto, after giving effect to this financing, shows current assets of \$1,912,828.44, and current liabilities of \$156,941.96, a ratio of over 12 to 1. The company agrees that the current assets will be maintained at all times during the life of these debenture bonds at not less than twice current liabilities, as defined in the trust indenture.

SINKING FUND AND SPECIAL PROVI-SIONS: The trust indenture provides for the pledge and assignment to the Trustee of the contract between the two Fageol companies, all payments under said con-tract to be thereafter made directly to the Trustee. With such payments the Trustees shall create a sinking fund which shall be used exclusively for the retirement of debentures prior to maturity. The minimum annual retirement under this contract will be \$75,000, which in itself is sufficient to retire this entire issue by maturity.

payments shall be made to the sinking fund equivalent to 10% of all net earnings as defined in the trust indenture, in excess of \$250,000 and up to \$300,000, and 20% of all net earnings in excess of \$300,000. The borrowing corporation covenants to pay no dividends on its common stock from its present accumulated surplus and fo pay no common stock dividends in any one year during the life of this issue until after \$185,000 net has been earned in that year.

MANAGEMENT: Management of the Fageol Motors Company is in the hands of experienced and able business men headed by Mr. L. H. Bill, president; Mr. J. H. Fort, vice-president, and Mr. F. J. Weupper,

BUSINESS: Among the large corporations and others using fleets of Fageol Safety coaches or trucks, a few are as follows:

Los Angeles Railway Corporation.

Pacific Electric Railway Company.

San Diego Electric Railway Company.

Key System Transit Company.

Key System Transit Company. Portland Railway, Light and Power Co. Market Street Railway Company. Market Street Railway Company.

STEEL INGOT OUTPUT GAINED IN JANUARY

NEW YORK, Peb. 7.—Steel ingot production in January was larger than either the output for the preceding month or for January, 1927, saching 2,000,904 tons, the American from and Steel Institute calculates. The percentage of operation was 23.76. Dutput in December was 3,150,345 onto and in January, a year ago. LTSO 277 tons. The month's output was exceeded in 1927 by only three months, March, April and May, each of which exceeded 4,000,000 tons. Percentage of operation is based on the innual capacity for Bessemer and pen-hearth steel ingots of 57,230,—80 gross tons for 1927, and January, 528.

HAVE SELF-RULE as you like, stay as many

come of them are several centuries cold, and have beautiful clubhouses dating from Renaissance times, with dining halls and libraries. Though on a more modest scale, they resemble the colleges of the old English universities more nearly, perhaps, than any other institutions on the continent.

Another item of fearless liberalism—the clubhouse remain open all night as long as anybody wants to sit and work there. But apparently the homeward drift sets in toward midnight, and indulgence in last house, being within the reach of all, holds no enticement.

Upsala University is keenly and consciously independent of state interference, and perhaps the strongly marked paternalism of the Swedish state drives the university into an ever more resolute assertion and application of liberal principles.—(Manchester Quardian (Living Age.)

HIS WORD FOR IT Caller: Are you sure the manager is not in?
Dignified Office Boy: Do you doubt. his word, sir?

WET PLATE

"My plate is damp," complained a traveler who was dining in a London hotel. "Hush," whispered his wifs, "that's your soup."

TWO HELD AS BOOTLEGGERS

KINGMAN (Ariz.) Feb. 7. (Exclusive)—Federal and county officers believe they have found the source of a flood of bootleg whisky in Oatman and other western Arisons crossed the Colorado River into Nevada and returned with a man and woman who, they affirm, supplied them freely with intoxicants. They even provided a free ferry across the river following approved signaling. The prisoners, who gave the names of Jimmy McDonald and Mrs. B. Mc-Kensie, have been sent to Prescott for trial in the United States court.

OF JUDGES TAKES SEAT

Chambers Showered With Many Well-Wishers

Duties of the presiding judge of the Municipal Court were transferred officially to Municipal Judge Chambers yesterday by Judge Stutaman as a result of the annual election Tuesday night in the Hall of Justice annex.

A profusion of floral offerings, coping from friends of many walks of life, greeted Judge Chambers as he arrived at his rooms to assume the new office, which carries with it the responsibility for keeping twenty-six Municipal Courts operating at full speed throughout the year.

Until he has tirns to become better acquainted with his new duties, Presiding Judge Chambers announced he will make no changes in the personnel of the courts. Resassignment of Judges Will not be attempted for at least four or five days, he stated. Judge Stutaman will temporarily assume jurisdiction over Division Sixteen, formerly occupied by Judge Chambers.

William S. Dinsmore, clerk of the Municipal Court, was present as Judge Chambers took over the presiding judgeship and assured him of the continued co-operation of his office in expediting court business.

HARBOR MERGER HITS COST

Cole Tells City Club How Rail Unification Will
Bring Better Service and Marked Saving

Marked economies and expedited service will follow unification of the Julian company books and who declares he is able to identify the spurious certificates issued by the railroad systems in the Los Angeles Harbor district, Franklin B. Cole, mannal told mambase of the City company prior to its collapse last

Marked economies and expedited service will follow unification of the railroad systems in the Los Angeles Harbor district, Franklin B. Cole, manager of the Los Angeles Harbor Department told members of the City Club who gathered to hear him discuss the railroad unification situation last night.

The speaker discussed the development of the harbor from its inseption and gave his hearers an insight into the great traffic problem that developed as the harbor grew into one of the largest in the world. At present four railroads maintain tracks at the harbor and have independent switching methods and freight clearing points. Under the unification plan, to which all but one road has agreed—and that one shorting expected to follow the others—all of the tracks and freight station, while the dual control of the city and one road has agreed—and that one shorting expected to follow the others—all of the tracks and freight station will be merged in one system, under the dual control of the city and one from each of the railroads, will be increasery to carry any proposed member from the city and one from each of the railroads, will be increasery to carry any proposed member from the city and one from each of the railroads, will be increasery to carry any proposed member from the city and one from each of the railroads, will be increasery to carry any proposed member from the city and one from each of the railroads, will be increasery to carry any proposed member from the city and one from each of the railroads, will be increased to go on the stand control of the personnel and equipment, subject, of course, to did five resis of motion pictures illustrating harbor development and showing the large basic industries where the first year operation in the harbor district will be heased on the world five resis of motion pictures were the city and one from each of the railroads.

The resemble of the city and one from each of the railroads will be in a subjected to a severe examination of the Julian company was subjected to a severe

The complaining witness is Emma
Thomas, who asserts she bought \$140
worth of stock October 28, 1927. Other asserted investors in the firm
named in the complaint are: P. Gertzweig, who invested \$500: Hattis Tippitt, \$170, and Clara Helvoight, \$5,
according to the complaint.

Andre Granted

In response to numerous complaints received lately, a squad of officers under Lieut. Peyton of the
traffic detail raided Pershing Square
yesterday and arrested thirty-seven
men for violation of a city ordinance
which prohibits blocking sidewalks
and streets in parks.

According to the officers the prisoners were congregating in groups
and interfering with the progress of
others through the Square. They
were booked at the City Jail on misdemeanor charges, most of them later
being released on ball.

STRANGELY DEMONSTRATED The man who tried to cut off his own water rights in a foreign country must have forgotten the old adage, "Blood is thicker than water," for the will was broken.

HARD TO LEARN

As in many other human matters, so far as the Foundation was able to discover, whether an athlete is a good scholar seems to depend. Perhaps after some years of study it will be found there is a slight advantage and that tops the heap in Europe. English is difficult also for the stranger.

The hard jobs are best appreciated.

WALKER GOES DET Mayor Walker has gone dry. But Prohibitionists should not be too enthusiastic over the fact, as he says he is not doing it for the good of his soul. By missing the high spots of the evening he is relieved of the low spots of the morning after. Still that's a fairly good argument for abstinence after all, and no doubt the Mayor will be all the better for his ride on the water wagon.

News for the good of lightest to see football games.

JULES VERNE CENTENARY

Born in Nantes, France, Feb. 3, 1828, Jules Verne, weaver of delightfully extravagant yarns of adventure, would have been 100 years old today had he lived twenty-three years longer than the span of life allotted to him. Verne was a versatile genius. He studied for the bar, and while doing so wrote plays and librettoe for

CITY SNOW PROBLEMS

In Philadelphia they are having a great time deciding what is the best means of clearing the streets of anow. It is a subject rich in argument. The Public Ledger of that city insists that something must be done to "solve the snow problem." In Los Weeks in a Balloon," originally appeared in the saw the control of civil affairs when the saw the control of civil affairs had been one of the chief tenets of the revolutionists, and was a most sorely needed reform. Chiang Kai-shek urged this reform, but when he saw the control of civil affairs had been one of the chief tenets of the revolutionists, and was a most sorely needed reform. Chiang Kai-shek urged this reform, but when he saw the control of civil affairs or imprecate, or yell, or snarl, or indulge in speech of any sort Except the language of the parior. It is the best means of the chief tenets of the control of civil affairs had been one of the chief tenets of the control of civil affairs had been one of the chief tenets of the control of civil affairs had been one of the chief tenets of the control of civil affairs had been one of the chief tenets of the control of civil affairs had been one of the chief tenets of the control of civil affairs had been one of the chief tenets of the control of civil affairs had been one of the chief tenets of the control of civil affairs had been one of the chief tenets of the control of civil affairs had been one of the chief tenets of the chief tenets of the control of civil affairs had been one of the chief tenets of the chief tenets of the chief tenets of the revolutionists. To have the train conductors bred the control of civil affairs had been one of the chief tenets fight rich in argument. The Public Ledger of that city insists that something must be done to "solve the snow problem." In Los Angeles the only problem of that sort is how to keep the frigid crystals brought down from the mountains from melting between this and in the fantastic stories that follows the snow problem. Reports from all sections of the country to the fourth American Plan Open Shop Conference, conducted last week at Jacksonville, Fia., indicate that the open-shop sonville, Fia., indicate that the open-shop idea is gaining favor everywhere. This plan, long in successful operation in Los Angeles, is now contributing to industrial peace and prosperity in hundreds of communities. Pronouncements to this effect were made by many different delegates to the conference trained of all the reports he the conference, typical of all the reports being this one from Fort Wayne, Ind.:

"There are no hatreds among the mem bers of the community where the open shop prevails, because the open shop creates a mutual respect between the citizens of each other's rights. There are no jealousies and

other's rights. There are no realousies and no conflicts, the citizens co-operate for the common good. Marked community benefits follow wherever the open shop prevails."

San Jose, Cal., added this: "The open shop acts as a stimulant to business and to increased prosperity, and to a heavy increase in building and loan investments—a sure indication of the prosperity and happiness of the workers."

sure indication of the prosperity and happiness of the workers."

That these effects are produced is no news to Los Angeles, but it is pleasing to hear that the experience of this city is being confirmed elsewhere. Concerning Los Angeles, Manager Fults of the Merchants' and Manufacturers' Association declared the open shop "the greatest single industrial asset Los Angeles possesses" and the factor around which the city has grown to a population of 1,250,000. He reported the determination of the leaders of Los Angeles to maintain this favorable status. By special

act of the convention, acknowledgement was made of the valuable example to American industry set by Los Angeles. Among the most important matters con-sidered by the conference was the fight now sidered by the conference was the fight now being made in Congress to hamstring the courts and take from them their power to protect life and property by forbidding them to issue injunctions in labor disputes, and Judge Shirk of Okiahoma City denounced this attempt as an effort to upset the stability of the nation itself.

"There is no such thing as peaceful striking and peaceful picketing," said Judge Shirk—a statement that goes to the very heart of the matter.

As the Okiahoma jurist pointed out, there is no strike on record in which unlawful

is no strike on record in which unlawful violence was not used, and in which irrep-PALMS DOWN

SAZZ DYING:

violence was not used, and in which irreparable injury was not done to the rights of individuals. The injunction is the only protection society has against such irreparable injury, which cannot be redressed by the ordinary processes of law. The closed-shop proponents continue to cling to the strike, the boycott, sabotage, picketing. When they object to injunctions they demand the right to continue unlawful practices, the right to break contracts, the right to prevent by forcible means other men from working, the right to riot, the right to murder. No such rights should exist for anybody.

anybody.

Injunctions are never issued against the peaceful features of a strike, if any features can be considered peaceful other than merely quitting work. It is always violence that is enjoined, and no one has yet been able to think up any good reason why violence should not be enjoined, when there is no other good way of preventing it.

In the absence of injunctions, peaceful workingmen and their employers would be at the mercy of the walking delegate and the "entertainment committee." This power of the courts is the only thing that unionite proponents of violence fear.

S The Carnegie Foundation for the Advancement of Teaching, not content with the smap-judgment method used by magazine writers on the subject, has set about a study of the relation of college athletics to scholarship, if and when. On a basis of replies from forty-four collegiate institutions, the Foundation is unable to reach any constitutions according to its twenty-according to CHIANG IS ASHAMED conclusion, according to its twenty-second annual report, and will continue to seek and

One difficulty was that there was no uniformity in the bases of comparison. Two
of the institutions reported on football
players alone; thirteen compared athletes
with the average standing of men students, body, including co-eds; ten compared them fact that tens of thousands of Chinese had both with men students and with the whole student body. Then there were other comprinciples of freedom had not prevailed. blood relatives in his will and set the lire estate to the cause of establishing parisons—with women students, with measurements in a foreign country must have students not taking part in athletics, with members of fraternities. Only twenty institutions put their reports on a percentage attitutions put their reports on a percentage attitutions. heats and these showed slight differences.

At any rate, the Foundation has discovered no ground on which to base an indictment of college athletics, which is cheering news for the general public. The gener public likes to see football games.

Rib Chop & Frenched A Quick Meal

Kinds of Lamb Chops

they are called kidney chops. Double-thick rib chops with the bone-end trimmed are referred to as French Chops.

There are two main kinds of lamb

Brofled Lamb Chops offed in their Jackets uttered Peas tuce with Mayo

the peas are heated and the coffee started. Of course the dessert was made before Mother left.

UITE a remarkable accomplishment, of the "new" American woman-breaking the shackles that bound her to the kitchen without compromising in the correct and adequate nourishment of her family.

When Mother is in a Hurry

Afternoon bridge, the shopping tour, a round of golf, or the spin to the beach — yet on the dot at dinner time the family enjoys a nourishing, well cooked complete meal. And Mother doesn't seem a bit flustered.

Lamb chops are one of the favorites for quick, wholesome meals. They are adequately cooked in the last eight to ten minutes, thus allowing plenty of time for preparation of the vegetables and salad and setting of the table.

Juicy, tender lamb chops—well browned outside and with just the chosen degree of rareness inside — served sizzling hot on a heated chop plate with a garnish of crisp, crinkly parsley. No wonder the family again urges Mother that she shouldn't stay home so much "just to cook."

For the quick meal especially, everything should be just right. How reassuring then to know that there is now a superior grade of lamb. Specially selected and fed, then graded, and doubly inspected. A guarantee of tender, juicy meat. It is called W-B Diamond Brand. Ask for it.

It is rumored that Lloyd may make a picture in the islands, but the comedian wouldn't admit that he had the picture in the stands but the than the stands of the picture in the stands that he had the picture in some away, other than

"However," amiled Lloyd, "It is pos-sible I shall end up by going nowhere except to New York, much as I want to take the Hawaiian trip."

Not Suicide, Says Widow

The widow of the late Earle Metcalf, the actor who was killed recently while making a flight in an airship, declares, according to friends
who have talked to me about the
matter, that her husband was not a
suicide, and that the reports to that
effect are erroneous. Though too prostrated to establish contacts with the
outside world, she commissioned a
friend to state for her:
"My husband asked me and our
three children to go to the avistion
field with me that morning. He
wanted one of the children to go up
with him, but I didn't want him to
go. Would he have invited us all
there and have requested a child of
his to go up with him if he had intended to commit suicide?"

supervisor, and Denny, who have spent several weeks in consideration of haif a dozen profered stories, have now agreed upon "The Man Disturber," an original by Frederick and Panny Hatton, as fuifilling all requirements. The hero is again a prize fighter, one of Denny's favorite film characters, but instead of the usual prize-ring episods, the story is said to deal with the romantic side of the puglilist's career in private life.

of the pugnists career in private life.

Poland has assigned Earle Snell to prepare the continuity and Fred Newmeyer to direct.

New Reproducing Outst william LeBaron, vice-president of F. B. O., has returned from New York with the announcement that the West Coast studie of the company will be equipped with a complete outsit for the recording and reproducing of sound in connection with motion pictures; and this within a month.

An expert from the General Electric company will supervise the installa-BOYS SAFE, BELIEF AT CAMP BALDY

UPLAND, Peb. 7.—Bellef that the two boys who left Camp Baldy at 11 o'clock Saturday to scale the summit of Mt. Baldy are safe al-though their whereabouts is still un-known, was expressed at the mounknown, was expressed at the mountain resort today. No inquiries have been made for the two youths at either the Camp Baldy Hotel or the ranger station. Both boys were "tenderfeet" and did not realize the danger they were going into when they left the camp in the face of a threatening enowstorm. It has been storming for many hours up to the time they left.

That the two boys whose names cannot be learned, could not have possibly reached the summit of Mt. Baldy, was learned today, when two other boys returned to the camp after having hiked within four miles of the top.

of the to the the the Adds we the fire terms. Hersholt Adds to Portraits

Another distinct characterization to the hundreds he has already portrayed on the screen is enacted by Jean Hersholt in "The Student Prince," which opens at the Million Dollar temorrow.

Many will recall Hersholt's subtle characterizations in "Stella Dallas."

"Greed" and hosts of other pictures.

Methor-Goldwyn-Mayer's manifestant it on of appreciation of Hersholt's performance is attested in the billing which it is giving Hersholt, notwithat attanding the fact that he is a star under contract to Universal.

Groucho Would

Those who know his work will be happy to hear again "Introduction trul. et Allegro," "Sonatine" and "Pavane on pour une Infante Defunte," tree works by which he is perhaps best for known in this country. And Los Angeles is fortunate to be personally introduced by the composer to his in- me pieces, which have not yet been heard here.

"HIS COUNTEY" EDITED

Barbars Hunter is wutting William K. Howard's latest Pathe-De Mille production, "His Country," through the four safe of the safe. Cover 200 sereen and stage persons have agreed to appear on the program of the production, "His Country," through the course of the safe. The entire program is in charge of creighton Hale and Jack Pierre.

Free Husband From Restraint

SANTA ANA, Feb. 7.—Barl Ensminger of Huntington Beach, was married to Alina Pay Ensminger but evidently she wasn't his true mate.

At least Barl sought the society of other women, his wife
alleges, and refused to heed her
ples that he desist.

"I'll continue to go with them

she said he told her.

In her divorce complaint, on file today in Superior Court,
Mrs. Ensminger said her husband not only neglected her, but also cursed and abused her, finally bundling her and their child away to Lour Beach.

OF WATER DISTRICT

BAKERSPIELD, Peb. 7.—Outlining physical conditions of the district, plans for impounding and distributing the flow of the Kern River watershed, and costs of new improvements and purchase of present irrigation, works required to carry out the project for which the district was organized, a digest of the report of Chief Engineer A. I. Trowbridge, on the basis of which directors of the Kern River water storage district will form recommendations to the State engineers, was made public today. Total cost of the water storage and irrigation project is estimated at \$12.-\$210.000; average cost per scro of land in the district would be \$49.18, and storage capacity of a high dam planned for construction at the forks of Kern River mear Isabelia is estimated at \$15.000 acre feet. Total area of the water storage district is \$28.500 acres.

REFUSE EXTRA PATROLMEN

BEFUSE EXTRA PATROLMEN
SANTA BARBARA, Feb. 7.—Request for two additional traffic officers to patrol the highways of Santa Barbara county at night was turned down by the Board of Supervisors today until after the fiscal year closes, June 30. Capt. Lester Desgrand Champ pointed out that in night work, traffic officers should travel in pairs, and that they would almost pay their way in fines as practically all the speeding and truck overloading was uncovered at night. REPUSE EXTRA PATROLMEN

COUNTY FILES NEW SUIT

VENTURA. Peb. 7.—A suit seeking to collect from Jasper Barry, who recently resigned from the County Assessor's office, the sum of \$57,000 he has retained as his commissions for collection of personal property taxes during the last fiscal year, was filed in the Superior Court here today for the county of Ventura by Dist.-Atty. James Hollingsworth.

Barry retained this large sum as his commission for collection, personal.

CHAMBER IS OPPOSED TO NEW PROJECT Barry retained this large sum as his commission for collecting personal property tax, but the District Attorney's office in its compilant alleges that the taxes on which Barry retained his commission were on real property and that he, therefore, was not entitled to the commission. It also was alleged in the complaint that when Barry took his oath of of-

NANCY PAGE

Had a Chance to Grow Up

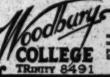

TELEPHONE SHIELD

It was a fusty thing, there was no denying it. It might possibly have a place in a young girl's room, but surely no one would think of putting it in a living-room. Nancy thought gratefully of her tailored three-panel screen. Godey prints had been pasted on the frame. These had been shellacked. The edge was finished with a gold gimp. The base was grm snough so that the screen or shield stayed in place. Nancy had seen one like here covered with brocade in cut velvet and another in Chinese damask. They did look

Henry Ford has overlooked several bets by not entering flivers in record-breaking tests, according to testimony heard in a case before Superior Judge Bishop yesterday. While vast sums are being apent by apeed enthusiasts to get a little more than 200 miles an hour on the beach in Florida a fliver attained a speed of something like 675 miles an hour on local streets, according to Mrs. Margaret Guichard.

Mrs. Guichard was plaintiff in a suit for \$3000 damages against M. N. Hurley, driver of the fliver, which, she asserted, strick the machine in which she was riding with her son and injured her. She testified that when she reached the intersection of Cheney and Compton avenue Hurley's car came hurtiling through the air for six blocks and struck the rear of the ear in which she was riding. EXTRA! FORD DOES 675 AN HOUR

Judge Gapes in Amazement When Woman Testifies Flivver Leaped Six Blocks and Hit Her, Then Dismisses

Case on Figuring Rate of Speed

"Madame," said Judge Bishop,
"surely you don't mean aix city
blocks? Do you realize that is
about 1800 feet?"

"Yes, it was six blocks away and it struck us when we were half-way across the intersection," she insisted.

The judge made some computa-tions with the result that the speed of the fliver was estimated at 675 miles an hour, providing the other car got halfway across the street at fitteen miles an hour, as asserted.

The son testified it was three city blocks that the flivver was away when he started to drive his mother across the street.

Hurley denied speeding and said young Guichard drove ahead, looking neither to left no right, and hooked into the humper of his ear, causing the accident.

The court decided against the complainant.

Need for Up-to-Date and Speedy Tenders Proved When Old Crafts Lag Behind Fighting Ships

al exercises of the Battle Fleet have shown a serious d

OLD CRAFT TOO SLOW As an illustration, it was pointed out that the Battle Fleet destroyer squadrons are served by two worn-out tenders—the Melvilla, built in 1915 and now unable to maintain cargo-ship speed, and the Altair, a twartime freighter adapted to fleet auxiliary use. The U.S.S. Procyon, fagaship of the United States Fleet Ease Force, is likewise a Hog Island freighter and utterly unable to keep up with the fleet at any appreciable tactical speed.

It is expected that provisions will be made in the proposed five-year construction program, now before
